

Pathways to
Tailored
Therapies

Early-bird registration closes 11 July 2008
Save up to \$55 by registering now!

This biennial meeting has fast become an integral event on Translational Cancer Research in Australia. The rapid pace of discovery in diagnostics, biochemistry, molecular biology, genetics, proteomics, biomarkers, and stem cell function, and their role in the development of tailored cancer therapies makes this a meeting you can't afford to miss!

Confirmed International Presenters include:

Elizabeth H Blackburn, University of California, San Francisco, USA

Michael Comb, Cell Signaling Technology, MA, USA

Gordon Mills, MD Anderson Cancer Centre, Texas, USA

Danilo Perrotti, Ohio State University, Ohio, USA

Anil Potti, Duke University Medical Center, Durham, NC, USA

Paul Workman, UK Centre for Cancer Therapeutics, The Institute of Cancer Research, Surrey, UK

**plus a distinguished list of
National Speakers...**
